*"Like having a son or daughter
on-demand"*

Our company is "Inspired by JOY." We help seniors and their families reduce stress and restore joy to the aging process.

We leverage the strength of community to provide light assistance and social connection for aging adults.

Our caregivers, "Nabors," are regular community members with a desire to support our elders while earning a little supplemental income.

We are on-demand so we are ready to step in when you need a friendly hand. Scheduling is simple, book online or just give us a call.

We only require a 1 hour minimum; after 1 hour we bill in 5 minute increments, so you only pay for what you need!

We carry industry leading insurance and all of our Nabors are rigorously screened, including thorough background checks and driving record audits.
